

Frequently Asked Questions

Question

Find the tyre pressure / paint colour code and what it means etc. for my C4 Coupe or Hatch and C4 Picasso

Answer

Your paint code is on a sticker by the hinges of the driver's door,

The AS-RP identification label is affixed to the front pillar or front door edge, on the driver's side .

a : Recommended tyre pressures (unladen and laden)

b : Tyre specification

c : Tyre type .

d : Recommended pressure of the spare wheel

e : After Sales - Replacement Parts (RP) number (ORGA number)

f : Paint code reference

g : Factory serial no.

Coding of body colours

The paint code consists of 4 letters (e.g. Polar White, code EWPA --) .

The first 3 characters are always the paint code .

The fourth character is the quality symbol :

A = Non-lacquered flat paint

B = Opaque lacquer

C = Metallic lacquer

D = Pearlescent lacquer

-- = Spare locations for future needs

Pre 2011 Coupe and Hatch Model Colours:

As an example it could be: Black Pearlescent EXLD (Primer is Dark Grey, code: EYM)

<i>Colour</i>	<i>Colour code</i>	<i>Material</i>	<i>Primer colours</i>
<i>Polar White</i>	<i>EWP A</i>		<i>A1 : white EWU</i>
<i>Admiral Blue</i>	<i>KNC B</i>		<i>A3 : medium grey EYK</i>
<i>Oriental Blue</i>	<i>KPU D</i>		<i>A4 : dark grey EYM</i>
<i>Olive green</i>	<i>LQQ D</i>		<i>A4 : dark grey EYM</i>
<i>Arctic Steel</i>	<i>EZR C</i>		<i>A2 : light grey EZM</i>
<i>Icelandic Grey</i>	<i>EYL C</i>		<i>A2 : light grey</i>
<i>Iron Grey</i>	<i>EZW D</i>		<i>A3 : medium grey EYK</i>
<i>Iridis</i>	<i>KTC C</i>		<i>A3 : medium grey EYK</i>
<i>Scott Yellow</i>	<i>KBC C</i>		<i>A2 : light grey</i>

Black Pearlescent *EXL D* *A4 : dark grey EYM*
Wicked Red *EKQ D* *A5 : red KKZ*
Sable Gold *HCW D* *A2 : light grey*
Normandy Green *LQJ C* *A3 : medium grey EYK*
Sport Red by Loeb *KKN*
Kazan Black *EXC - C4 VTS 180 Spoiler*
Noir Onyx *EXY*
Noir Perla Nera *KTV*

C4 Picasso and Grand Picasso

Body colours

Colour	Colour code	Material	Starting date	End date	Primer colours	Primer code
Banquise White	EWP	A	2006	-	White	EWU
Black	EXY	B	2006	-	Dark grey	EYM
Oriental blue	KPU	D	2006	-	Dark grey	EYM
Arctic Steel	EZR	C	2006	-	Mid grey	EYK
Iron Grey	EZW	D	2006	-	Dark grey	EYM
Wicked Red	EKQ	D	2006	-	Red	KKZ
BURLAT	KHL	D	2006	-	Red	KKZ
ICARE	KEN	C	2006	-	Dark grey	EYM
NOCCIOLA	KEB	C	2006	-	Dark grey	EYM
OR ANODISE	KAQ	C	2006	-	Mid grey	EYK
SHOW ROUGE	KHR	D	2006	-	Dark grey	EYM
BLEU TIVOLI	KNY	C	2006	-	Mid grey	EYK

The final letter of the four indicates the material (finish).

- A : non-lacquered flat paint
- B : superlustre metallic paint
- C : superlustre solid colour
- D : superlustre pearl paint

Road Wheels:

Steel Rims: EXX Matt Black

Alloy Wheels: EVT grey Lacquered

Wheel Trims: EVT grey Lacquered

Undercoat colours 4.1. Cataphoretic treatment

Colour used in manufacture : Mid grey

Replacement Parts colour : Mid or dark grey

The repairer must redo the under-coat in zones that no longer have a top coat, in the case of replacement (surfaces bared for welding) or of re-coating of certain structural components (particularly under the bonnet)

In this case, he should use a coloured primer as close as possible to the original colour

Coloured primers

Coloured primers close to the topcoat colour are applied at the factory

The aim is to substantially reduce the negative visual effects of stone chip impacts

These coloured undercoatings also offer the benefit of improving the colour result in the case of colours with poor covering power (reducing the number of topcoats required) .

Minimum thickness of the primer coat, whatever the colour:

30 microns in the zones not, or only slightly, exposed to gravel chipping

45 microns in zones exposed to stone chipping (front panel components, roof front part, lower parts of side components)

All the exterior surfaces are coated with primer

On the interior surfaces, the paint finish is applied directly onto the cataphoresis

Paintable or coloured primers are also available from Citroen approved suppliers for repair painting

Repairers are advised to use these suppliers to obtain the colours that are specific to the vehicles they are repairing
